Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 02 May 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) filed May 2, 2006 is acknowledged.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 13 and 14 are rejected under 35 U.S.C. 102(a, e) as being anticipated by Iwasaki (6,563,626).

Iwasaki (Figs. 12-20, 27A-29) discloses a display apparatus for forming an image on a retina of a viewer comprising a light source 12, a scattering plate 17, an image plate 16 and a lens 18 wherein the light source and the pupil of the viewer have a conjugated relationship (see column 16, lines 345-37). It should be noted that although claims 13 and 14 “method claims”,

Art Unit: 2873

the method steps consist of the broad steps of "emitting", "scattering", "transmitting" and "focusing" etc and therefore these steps would be inherently satisfied by the apparatus of the reference.

Allowable Subject Matter

4. Claims 1-3 and 8-12 are allowed.

5. The following is an examiner's statement of reasons for allowance: Iwasaki (Figs. 12-20, 27A-29) discloses a display apparatus for forming an image on a retina of a viewer comprising a light source 12, a scattering plate 17, an image plate 16 and a lens 18 wherein the light source and the pupil of the viewer have a conjugated relationship. Iwasaki (column 16, lines 55-65) also discloses that "the characteristic of the scattering 17 can be adjusted by changing the shape and the surface roughness of the unevenness on the surface 17a." Thus, Iwasaki fails to disclose a mechanism for adjusting the location of the scattering plate between the light source and the imaging plate. Therefore, these limitations "a mechanism for adjusting the location of the scattering plate between the light source and the imaging plate" in combination with the claimed subject matter as claimed in claim 1 could be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 2873

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
